TECHNICAL SKILLS

Languages: C/C++, Python, Java, JavaScript, SQL, R, HTML/CSS

Frameworks: React, Django, .NET / ASP.NET Core, Blazor, Node.js, Express, Razor Pages

Developer Tools: Git, Docker, Render, Prisma, Linux, VS Code, PyCharm, Eclipse

TECHNICAL EXPERIENCE

Clinic Website Development/Design

Springbok Medical Clinic

Contracted

Kelowna, BC

- Designed and developed a responsive clinic website focused on clear service presentation, accessibility, and patient ease of use
- Implemented reusable layout components and consistent styling to support future content expansion and maintenance
- Optimized page structure and navigation to improve usability across desktop and mobile devices
- Collaborated with clinic stakeholders to translate business requirements into a clean, production-ready web solution

PROJECTS

Educational Cybersecurity Demos | HTML, CSS, JavaScript, Git

- Built a centralized platform showcasing hands-on cybersecurity demonstrations, including secure coding and attack simulations
- Designed modular layouts to support multiple demos and technical write-ups
- Used as a learning and presentation tool to clearly explain security concepts and development decisions

Full-Stack Blog Platform | Node.js, Express, PostgreSQL (Neon), Prisma, Render

- Developed RESTful APIs and relational database-backed content management features
- Designed and implemented a normalized database schema using Prisma ORM
- Deployed a production-ready application with environment-based configuration and secure credential management
- Focused on clean backend architecture, maintainability, and scalability

Blazor + API 'Reddit' Application | .NET, Blazor, SQL, REST APIs

- Built a full-stack discussion platform using Blazor with a dedicated backend API
- Implemented CRUD functionality and data access through a clean API layer
- Integrated caching strategies to improve performance and reduce redundant database calls
- Applied separation of concerns between UI, API, and data layers

WORK EXPERIENCE

- Cook** **October 2022 - Present**
Pinnacle Hotel Harbourfront Vancouver, BC
- Prepare and execute high-volume food service while maintaining strict quality and safety standards
 - Coordinate with team members to ensure efficient service during peak hours
 - Maintain inventory accuracy and cleanliness in a fast-paced environment
- Senior Sous Chef** **March 2019 - September 2022**
White Spot North Vancouver, BC
- Led kitchen operations and supervised team members across multiple stations
 - Created weekly inventory and waste-reduction action plans to improve cost efficiency
 - Trained and mentored new staff, improving onboarding efficiency and consistency
 - Executed and supervised multi-station food preparation under strict timelines
 - Improved cleaning and closing workflows to increase consistency and accountability
- Customer Service Representative** **December 2017 - January 2019**
Canadian Tire North Vancouver, BC
- Assisted customers with product selection and technical inquiries
 - Delivered consistent in-person and phone customer service

EDUCATION

- Computer Systems Technology (CST)** **2026**
British Columbia Institute of Technology Burnaby, BC
- Google Cybersecurity Professional Certificate** **2025**
Coursera Online
- Computer Systems Certificate (CSC)** **2024**
British Columbia Institute of Technology Burnaby, BC
- Applied Software Development (ASD)** **2023**
British Columbia Institute of Technology Burnaby, BC
- Applied Computer Information Systems (ACIS)** **2022**
British Columbia Institute of Technology Burnaby, BC
